

## New milestone in Tamil Nadu.

### York Service Dealership Inaugurated in Namakkal

York marked a key milestone with the inauguration of its new dealership, Prime Sourcing, in Namakkal, Tamil Nadu. The facility was inaugurated by Managing Director Mr. Chatterjee, Sales & Marketing Director Mr. Gurumukh Singh, and Service & Spares Head Mr. Kalaikumaran.

Announcing the launch, Regional Manager A. Christopher emphasised York's focus on

enhancing service standards and expanding accessibility across southern India.

Equipped with a 3-bay workshop and a fully stocked warehouse, Prime Sourcing is built to deliver faster service and better support in the region. The inauguration concluded with the ceremonial first material dispatch, flagged off by Mr. Chatterjee and Mr. Gurumukh Singh - marking the start of full-scale operations.

### Shree Balaji Roadlines

#### A Journey of Growth, Powered by YORK

From three trucks in 1999 to a fleet of 1,450+ vehicles today, Shree Balaji Roadlines, under the leadership of Mr. Vijay Manikrao Gaikwad, has become a name synonymous with reliability in logistics. With over 200 trailers running on YORK Road Samrat air suspension, the Pune-based company is redefining operational excellence. With end-to-end services like trucking,

warehousing, and intermodal solutions and now even 100 buses run by Maharashtra govt., Shree Balaji's journey reflects not just scale, but a sharp focus on innovation, service and speed. Behind it all is a leadership team committed to transformation: Mr. Gaikwad, Mr. Rajendra Khutwad, Mr. Ravindra Bhairat and Mr. Sandesh Mate.

**Why they choose York**

**Safer rides,  
higher uptime**

**Longer tyre  
life and lower  
costs**

**Higher GCW  
handling  
(up to 55T)**

**Greater driver  
comfort and  
productivity**

**Higher resale  
value of  
trailers**

**Service That Keeps Them Going**

**Prompt support  
& regular follow-ups**

**Technical training  
& service camps**

**Affordable spares,  
available nationwide**

**Mobile service  
vans for

**“YORK’s service support is unmatched. The ride is smoother, the comfort is higher, and our drivers are covering 100–200 extra kilometres a day. With YORK, there’s no going back.”**

**- Mr. Vijay Gaikwad, Director**

## Product Spotlight

### York 5071 Axle: Built to Take the Load

With a robust 18-tonne capacity and off-road-ready construction, the new 5071 Axle is engineered for today's heaviest loads and toughest routes. Whether it's rugged terrain or long highway hauls, this axle is designed to deliver smooth performance, longer tyre life, and lower maintenance needs.

## Why it stands out

**One-piece bullet with integrated spindle beam**

**Heavy-duty 420×180 mm brakes**

**Reinforced hub with high-life TQ bearings (Ø90/100 mm)**

**Long-life grease for reduced maintenance**

**Easy-to-replace components and affordable spares**

**M24 thread studs for demanding loads**

## Customer Spotlight

### Where Innovation Meets Insight

York recently welcomed a group of valued customers and partners to its Pune Plant.

The visiting team included Vaibhav Singh, Manish Srivastava, and Raghvendra Shukla from Indian Auto Wheel, along with Mr. Amit Yadav, Ravi Pratap Singh, Kripa Shankar Chaudhary, Surender Verma, Arun Babu Jaiswal, Arvind Mishra and Sant Tabrej Alam.

Guests were given a guided tour of our world-class manufacturing facilities, cutting-edge R&D lab, and rigorous quality systems. The visit also featured an open forum for discussion, feedback, and collaboration.

We thank our customers for their valuable time and trust - and look forward to building stronger partnerships together.

## Training Spotlight

### York launches Welding Training Centre

To strengthen product quality and upskill its workforce, York has launched a **Welding Training Centre** at its facility.

The centre offers hands-on training, industry-relevant certification and lessons aligned with real-world axle production. Trainees learn modern welding techniques, safety protocols and how to meet York's high-quality standards.

The focus? Better welds, safer builds, and a more skilled workforce, ready for the future of heavy-duty transport.

Whether it's fresh talent or experienced staff, everyone can now sharpen their skills and contribute to York's legacy of durability and innovation.
